Understanding the different levels of meets

No Time Standards: Typically these meets are for 9 and over swimmers only. Anyone who meets the age requirement is eligible for this meet. This is no time requirement beforehand.

Mini Meet: These meets are for all 8 and under swimmers.

Time Standards: Typically these meets are for 9 and over swimmers only. To be able to go to these meets, you must have swum the event and had a faster time than the time standard listed in the meet announcement.

Qualify: This means you have to qualify for the meet and this happens depending on the particular meet. Please check the meet announcement for details, as they are all different.
